Claim Rejections - 35 USC § 112

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "similarly" is ambiguous since the bounds and limitations of the "similarly" constructed, located, etc., structures are not clearly defined.

Claim Rejections - 35 USC § 102

Claims 1-4,7 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Seregi.

Seregi discloses pantographs 15 and panels 47 mounted thereto. The pantographs are as recited and no further discussion thereof is needed. Regarding claims 7 and 8, upper panels are mounted to a first set of opposing trains and lower panels are mounted to different opposing trains located below the first opposing trains, thereby forming a "double wall".

Claim Rejections - 35 USC § 103

Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Seregi in view of Peterson '464.

While Seregi does not use cables and a line shaft, such is well known as illustrated by Peterson at 64. It would have been obvious to replace the gear and screw arrangement of Seregi with that of Peterson so as to simplify the structure.

Conclusion

Applicant's remarks have been considered and the previous rejection has been removed. Applicant's definition of "pantograph" will be used, thereby removing Peterson '464 from the rejection. This action is not made final.
